Spring 1963

TOP QUALITY EVERGREEN STOCK

MAY WE SUGGEST THAT YOU ORDER EARLY

NATIONAL AGRICULTURAL LIBRARY
RECEIVED
Closed Sunday

DEC 31 1962

U.S. DEPARTMENT OF AGRICULTURE

Member
American Association of Nurserymen
Pennsylvania Nursery Association

Indiana Co. Christmas Tree Growers' Assn.
Pennsylvania Christmas Tree Growers' Assn.

We invite inspection and will match quality and price with seedlings from any source. Write or phone for an appointment to see these trees growing.

Send us your order now and save on these low prices. SPECIAL RATES ON COMPLETE BEDS. Beds are 100 ft. long and approximately 3 1/2 ft. wide.

All stock is offered subject to prior sale, subject to any damage caused by weather or any other cause between date of order and shipping date. All orders are shipped at the risk and cost of the purchaser. Our liability ceases when trees are delivered to carrier. If breakage occurs or if stock suffers through delay in transit, claims should be made on the transportation company immediately.

All orders must be accompanied by cash or a 25% deposit. The balance will be shipped C.O.D. by parcel post or express collect, if shipping instructions are not given.

These prices cancel all previous prices.

No Spring shipment scheduled before March 25.

Give second choice on late orders. Order your trees now while they are available.

All prepaid orders will be packed free of charge. Minimum order \$5.00. Under \$5.00, add 50 cents for handling charge.

IMPORTANT — See Special Quantity Discount.

500 trees of one kind and size at 1000 rate. Less than 500 at the 25 or 100 rate.

Please print your name and address plainly when ordering as precaution against errors in shipping.

If necessary to make a claim, this must be filed in writing within five (5) days from receipt of shipment. Will not be liable for more than the value of the original purchase price.

Samples will be charged at 25 rate. Should the samples prove to be satisfactory and result in an order we will credit the cost of the samples toward your order and samples are free.

Price per 1000 is listed for each age and size. For price of larger or smaller amounts see table below.

SCOTCH PINE

Age	Size	Per 1000
2-yr. Seedlings	2-4 in.	\$ 7.50

125.00	.28	.25	125.00	114.00	112.50			

Each kind of tree above is listed in the age and size by a 1000 price. To find the price of say 50, a smaller amount than 1000, use this table. Take the price of the item by the 1000, say \$30.00 per 1000, locate \$30.00 in the "Price per 1000" column at left and go to the right to 7 cents each which price is on Lots of 25 to 99 trees. 50 of that kind at 7 cents each will cost you \$3.50. Discount prices are given on lots of 5000 and over. Lots of 5000 of the same item at \$30.00 per 1000 will cost you \$28.00 per 1000 or 5 x 28.00 or \$140.00 for 5000. Lots of 50,000 of the same item at 30.00 per 1000 will cost you 25.00 per 1000 or 50 x 25.00 or \$1,250.00 for the 50,000. *500 at the 1000 rate.

A photograph of a person in a white shirt and dark pants standing next to a large, dark, curved structure, possibly a piece of machinery or a large container, in an outdoor setting. The person is looking towards the camera. The structure has a circular opening and some text on it, which is partially visible. The background shows some vegetation and a fence.

(We also make the "Lake States" model similar to the Standard, with addition of scalper).

Rootspred Tree Planters Offer All You Need To Plant Trees Well!

These are **heavy-duty planters** suited for use with small crawler tractors as well as wheel tractors. The long point pulling into the soil puts additional weight on the tractor increasing traction and enabling even light tractors to pull the planters under difficult conditions.

COULTER HUB fabricated of 1/2" steel tubing with heavy bronze, press-in bearings at both ends. Knock out and replace when worn.
POINTS are of cast iron, existing steel, hard surfaced in addition.
TRENCHERS are of abrasion-resisting steel and slip over the 3/4" x 6" beam.
SEATS are high-back, tractor type.
PLANT BOXES are 8" high.
HEELING WHEELS AND TIRES: Outside diameter 18". Axle is 1" cap screw. Wheel supports are threaded and a lock nut is used. Wheels are adjustable for distance between. Inexpensive bushing-type bearings are used which do not cause wear on axle.

MAIN FRAME: Two members $1\frac{1}{2}'' \times 3\frac{1}{2}''$. Top link brace is $3\frac{3}{4}'' \times 2''$.
Coulters supports $1\frac{1}{2}'' \times 3''$.
FLOATING TRAILER: Side rails $1\frac{1}{2}'' \times 3''$. All sheet steel on the planter is $1/8''$.
COULTER is 18" standard equipment. 20" can be furnished at extra cost.
WEIGHT—360 pounds.

MAIN FRAME: 1/4" steel plate, all-weld construction.
COULTER: 20" but can furnish 18" for very gravelly soils. 28" coulters available at extra cost for brushy conditions on light sand. Coulter adjustable to 2" below point, thus protecting point.
WEIGHT - 460 pounds.

Your trees are worthy of the best of care. After receiving your shipment unpack immediately and remove all of the packing material. The roots should not be exposed to the sunlight and drying winds. Dig a trench deep enough to hold the roots and long enough to hold all the trees in a place convenient to the planting site and if possible in a shaded location such as the North side of a building or woodlot and near a supply of water. Place the roots in the bottom of the trench and fill in fine moist soil then pack it firmly about the roots to exclude the air. If the ground is dry moisten the earth around the roots.

Other uses: Remove coulters, trencher and hook out small stumps. The M-55 is particularly suited to **Nursery Work** and we can supply special trenchers for making wider trenches for small potted plants.

SHELOCTA, PA.

When trees are replanted too close together, they crowd and the resulting competition speeds the height growth and tends to make a poor Christmas tree. Many different opinions are offered on tree spacing. Four feet by four feet spacing requires 2720 trees to the acre and may be used where thinning is contemplated at a comparatively young age. Five feet by five feet spacing requires 2160 trees per acre and allows the first thinning to be made at five years. Christmas tree thinning will still leave a good stand of timber. Six feet spacing requires 1210 trees per acre and is recommended where trees are planted for forestry products and thinning is intended for Christmas trees.
